

Healthcare Valuation Services

Fair Market Value Opinions

Our valuation experts provide fair market value (FMV), volume or value standard, and commercial reasonableness opinions for a wide range of financial arrangements entered into by physicians, hospitals, and other healthcare entities.

Business Valuation

We have extensive experience in business valuation across the full range of healthcare organizations. Our particular focus on the healthcare industry enables our deep understanding and expertise dealing with fluctuating healthcare valuation issues and market data.

Physician Compensation Consulting

In addition to valuation services, we provide a variety of compensation-related consulting services, including physician compensation design, modeling, and compensation philosophy development.

Asset Appraisals

Our valuation experts also provide appraisals of furniture, medical and office equipment, medical records, and other selected assets in healthcare facilities. Our reports are tailored to healthcare acquisitions and specifically address compliance with healthcare regulations.

BuckheadFMV is a national firm that specializes in the valuation of healthcare services, businesses, and assets of all kinds. Our focus is on providing well-supported fair market value opinions for even the most complex arrangements and organizations. We have extensive experience working with hospitals, healthcare systems, physician groups, and other healthcare entities. Contact us with your fair market value questions.
