

Pharmacy Valuation Overview

The pharmacy industry runs the gamut from specialty pharmacies with unique capabilities to small retail locations with a more general focus. Retail pharmacies tend to have low profit margins due to the high cost of drugs, while specialty pharmacies tend to have higher margins. Both can generate solid returns on capital for investors.

MARKET DATA FROM SPECIALTY PHARMACY TRANSACTIONS

	Size Characteristics			Benchmarks		
	Price (EV)	Revenue	EBITDA	EBITDA Margins	Revenue Multiple	EBITDA Multiple
